EDUCATION

Brown University, *Ph.D., Epidemiology* Providence, RI | 2023 – present
Published 2 peer-reviewed manuscripts (1/2 first author) | Awarded NASA Rhode Island Space Grant Consortium Fellowship of \$23,159 | Awarded \$500 for Outstanding Doctoral Student Publication

Johns Hopkins University, *MAS in Spatial Analysis for Public Health* Baltimore, MD | 2020 – 2022
Awarded OPAL Scholarship covering \$446/credit

Smith College, *B.A. in Biochemistry, Anthropology* Northampton, MA | 2014 – 2018
Awarded \$2,200 Praxis funding to support summer internship | Dean's list

TECHNICAL PROFICIENCIES

High proficiency: R (commonly used packages: ggplot2, dplyr, deSolve), SLURM, Linux/Unix, HPC environments
Familiarity: Python, SAS, SQL, ArcGIS, EPIC EMR, Tableau

PROFESSIONAL EXPERIENCE

Brown University School of Public Health, *Graduate Research Assistant* Providence, RI | 2023 – present

- Publish 1 peer-reviewed manuscript (1/1 first-authored) and present findings at national conferences
- Implement Susceptible-Infected-Recovered (SIR) models and fixed effects regression to investigate the impact of climate on influenza transmission and outbreak dynamics
- Use Python and R to query, process, and analyze high-dimensional climate, spatial, demographic, and infectious disease data

University of Michigan Health Service, *Health Data Analyst* Ann Arbor, MI | 2021 – 2023

- Synthesize, evaluate, and communicate regular data updates (e.g., operational metrics, communicable diseases, lab test results)
- Query and report to organization and university leadership regarding a range of clinical, financial, and administrative processes and results
- Leverage R, Python, SQL, and Tableau for data mining, processing, visualization, and presentation
- Present research findings at national conferences and publish 2 peer-reviewed manuscripts

University of Virginia Medical School, *Laboratory Specialist* Charlottesville, VA | 2018 – 2020

- Investigate the effects of a CRISPR Cas9 genetic knockout mutation in the mouse NXF1 gene
- Create and maintain data pertaining to the mouse colony
- Isolate and analyze RNA, DNA, and protein from transfected and infected cells
- Perform gel electrophoresis, Western blotting, PCR, and DNA and RNA sequence analysis
- Present research findings in an international conference

ORGANIZATIONS

Institute at Brown for Environment and Society, Brown University Providence, RI | 2023 - present

PEER-REVIEWED PUBLICATIONS

1. Ury, B., **Stamper, A.**, & Baker, R. (2026). Climate influences on hospitalization patterns in Mexico: Evidence from 30 million records. Environmental Research Communications. <https://doi.org/10.1088/2515-7620/ae37d9>
2. **Stamper, A. R.**, Mahmud, A. S., Nuzzo, J. B., & Baker, R. E. (2025). Modeling the Impact of Climate Extremes on Seasonal Influenza Outbreaks Across Tropical and Temperate Locations. GeoHealth, 9(4), e2024GH001138. <https://doi.org/10.1029/2024GH001138>

3. Montgomery, J. P., Marquez, J. L., Nord, J., **Stamper, A. R.**, Edwards, E. A., Valentini, N., Frank, C. J., Washer, L. L., Ernst, R. D., Park, J. I., Price, D., Collins, J., Smith-Jeffcoat, S. E., Hu, F., Knox, C. L., Khan, R., Lu, X., Kirking, H. L., & Hsu, C. H. (2024). Detection of a Human Adenovirus Outbreak, Including Some Critical Infections, Using Multi-Pathogen Testing at a Large University, September 2022—January 2023. *Open Forum Infectious Diseases*, ofae192. <https://doi.org/10.1093/ofid/ofae192>
